

Full service participation with luxury stand construction

Would you prefer the peace of mind of having a full-service stand construction but do you still wish to create a distinctive, non-standard look? Offshore Energy offers luxury stand construction for full-service stands of 20m² and over.

Luxury stand construction is a supplement to the full service standard construction and is available in a Silver, Gold and Platinum package. The costs of a luxury package are added to the cost of standard stand construction.

The organization will inform you about the specifications concerning furniture colors, carpet colors and the graphics once your order has been received.
